## Definitions

---

### Business data:

Any data referring to an legal entity, CNPJ, corporate name, trade name, ASN, among others.

### Personal data:

Any information related to an individual, to identify or make it identifiable, for example; name, ID, CPF, date of birth.

### Sensitive personal data:

Data related to an individual that may discriminate the individual, for example, religious conviction, politics, ethnicity, sexual orientation, genetic data, among others.

### Anonymized data:

Personal data of holders that cannot be identified, using reasonable and proportional technical means available at the time of processing.

### Data processing:

Any operation carried out with personal data, from the collection, production, reception, classification, use, access, transmission, distribution, archiving, storage, elimination, among others mentioned in article 5, X, of Data Protection Law.

## Data collect

---

When interacting with us through our website, the information that may be requested includes the name of the person responsible for the project, email address, telephone number, CNPJ, company name, etc. This data serves to identify you as a specific individual.

Huge Networks may request this data through the user's direct contact with the company, by email, telephone call or by sending a message.

All information provided by the user is their sole responsibility, exempting Huge Networks from any liability arising therefrom. Furthermore, the user who signs the contract and accepts the manifestations on behalf of a legal entity, declares, under the penalties of the law, that he is the legitimate legal representative.

## Data entered in the website's contact form

---

Huge Networks requests in its contact form provided on the website the following personal and business information; full name of the person in charge of the project, company name, contact telephone number and e-mail address.

The data informed by the user will be collected and stored for the purposes of executing the contract, however, it may be necessary even after the end of the contractual relationship, to keep some personal data in compliance with legal and contractual terms. They may also be used for the options provided in the topic "How Huge Networks Uses Information About You", provided in this Privacy Policy.

The data will be stored in a secure and controlled environment, for the time necessary to fulfill the purposes for which they were collected, contractual executions, accountability, or even a possible request from competent authorities.

## Data requested for the preparation of Service Provision Agreements

---

Huge Networks will request the following data to carry out the Service Agreement:

### Company name, trade name, CNPJ:

These data will be used to verify the veracity of the data provided by the user, to compose the registration form which will bind the user to the contractual obligations.

### Company physical address and telephone number:

Will be collected to compose the registration form, and to enable contact between companies, specifically sectors such as; financial support, and reporting of anomalies.

### Social Contract:

You will be asked to verify the link between who is hiring and who has the power to hire, such as the company administrator, expressly designated in the user's Social Contract.

### E-mail with company domain:

The e-mail with the company's domain will be requested from the person responsible for the sectors mentioned above, and for the signature of the company's legal representative, perform the electronic signature of the contract.

### Details of the person responsible for the company:

Name, identification document and contact of the person who will sign the contract for the provision of services.

## Data collected indirectly

---

### Cookies:

---

They are used mainly to ensure the proper functioning of websites and other online services, facilitating the process of adapting the website of Huge Networks for a better experience and meeting the needs of its users.

The information collected via cookies is essential data for the functioning of the website, to obtain access metrics and to offer products as needed by the users. When browsing the site, you can select the permissions for the cookies you want to use.

In addition to the personal data mentioned, the following information may also be requested to perform the provision of services: ASN, IP and Router, which will be kept confidential, in accordance with current legislation.

## Public Authority

---

Huge Networks will only make your data available to Public Authorities when the request to do so is in accordance with the law. We do not deliver data excessively, or in case of legal non-compliance.

## Data processing

---

Pursuant to article 7 of the Data Protection Law, the processing of personal data may be carried out provided that there is the provision and consent of the data subject, i.e., free, informed and unambiguous manifestation by which the subject agrees with the treatment of their personal data for a particular purpose; when they are necessary for the execution of the contract; and when necessary to meet the legitimate interests of the controller or third parties, except where fundamental rights and freedoms of the holder that require the protection of personal data prevail.

## Purposes: how Huge Networks uses information about you

---

Request for quotation, services, products, support, tests, white papers or information;

Contractions of services and products;

Use of our website, products and services online;

Solving technical problems related to products and services;

Technical, financial, administrative, commercial and legal notifications;

For sending email marketing.

## Sharing and transferring personal data

---

Personal data collected by Huge Networks will be shared with duly authorized collaborators and as necessary to ensure the quality and correct performance of the provision of services.

The information provided may also be shared with other companies, including suppliers and service providers, exclusively for the correct provision of services, and personal data will be treated by these companies in an appropriate manner, in accordance with Data Protection Law, in the same way that Huge Networks acts.

If Huge Networks performs the international transfer of Personal Data for storage abroad, this transfer will only be made to countries that have an adequate level of Personal Data Protection, in accordance with Brazilian legislation. However, if it is necessary to transfer personal data to a country that does not have an adequate level of Personal Data protection, Huge Networks will, prior to the transfer,

inform the user and establish which mechanism will be used to ensure the legality of the international transfer of Personal Data, according to the rules contained in the Data Protection Law and any regulations issued by ANPD.

## Rights of Personal Data Subjects

---

Huge Networks is committed to protecting your personal data in accordance with applicable laws, therefore, we present below the list provided for in art. 18 of the Data Protection Law.

I

Confirmation of the existence of treatment;

II

Access to data;

III

Correction of incomplete, inaccurate or outdated data;
